Welcome to BIOS – Biomedical Inventory Optimization System

where innovation meets efficiency

Bios represents a paradigm shift in how you manage and optimize your biomedical inventory. Designed with meticulous attention to detail, Bios empowers your team to elevate their capabilities, streamline workflows, and achieve unparalleled insights into your equipment, complaints, preventive maintenance, and consumables and lot more. Harness the power of cutting-edge technology tailored to the unique needs of the biomedical field. Whether you're tracking equipment, analyzing complaints, scheduling preventive maintenance, or managing consumables, Bios is your comprehensive solution. Our commitment to excellence ensures that Bios not only meets but exceeds the demands of your dynamic and critical biomedical environment.

Bios becomes the cornerstone of your Biomedical Engineering excellence. Experience efficiency redefined, only with Bios.

BIOS Software Features:

1. Inventory Management:

- Efficiently track and manage biomedical equipment details, location, and maintenance history.

2. Complaint Management:

- Record and analyze complaints, calculate downtime, and enhance your troubleshooting process.

3. Preventive Maintenance:

- Schedule and track preventive maintenance tasks, ensuring the longevity of your equipment.

4. Consumables Tracking:

- Keep detailed records of consumables and accessories issued by the Biomedical Engineering department.

5. Cloud Storage Integration:

- Securely store your data with our dedicated integration with Google Cloud.

6 . Web and Mobile App:

BIOS is accessible through both web and mobile applications,

WHY B10S ?

• Enhanced Efficiency:

- Streamline your workflows and boost the efficiency of your Biomedical Engineering department.

• User-Friendly Interface:

- Navigate Bios effortlessly with our intuitive and user-friendly design.

• Customizable Solutions:

- Tailor Bios to meet the specific needs of your department

USER INTERFACE

The screenshot shows the B10S software interface. At the top, there is a navigation bar with icons for Consumable Entry, PM Entry, Reported to Company, Daily Work, Home, Equipment Search, TICU, MICU, Ortho ICU, IRCU, SICU, MDICU, NSICU, Casualty Block, Cardiology, Blood Bank, and CSSD. The 'Home' icon is highlighted with a pink oval. The main area is titled 'HOME' and features the B10S logo with the tagline 'THE BME MITRA'. To the right of the logo, it says 'BIOS' and 'THE BME MITRA'. In the top right corner of the main window, there are status indicators: 'Sync complete', a refresh icon, a dropdown menu, and a circular icon with the letter 'A'.
